

MAI TECHNICAL REGULATIONS 2007

Clarification Number 1

To : ALL COMPETITORS

Date: 10th September 2007

Clarification on MAI Technical Regulations - Group N +

1. Keeping in mind the intentions with which the Group N+ regulations were formulated it is hereby clarified that:

Art 6.1 Group N+ Specific Regulations

Cylinder head – “Modifications are permitted to the original cylinder head ... “ should read as

-“ Modifications are permitted to the original cylinder head and its components e.g. valves (provided the valve diameter remains as mentioned in the homologation form), valve guides etc.

2. All drive pulleys are free - e.g. alternator, crankshaft etc
3. In order to accommodate manifolds, it is permitted to re-locate components obstructing the fitment of the same
